

ABDELKRIM BOUMAHDI

Data Scientist | Full Stack Web Developer

Algiers, Algeria | abdelkrim.boumahdi@gmail.com | +213 777 67 48 94

PROFESSIONAL SUMMARY

Data scientist with strong academic background and more than 10 years of coding experience. My expertise encompasses areas such as computer vision, machine learning, meta-heuristics, and database management. Currently, I am conducting data science in the realm of football. My work includes coding algorithms for player clustering based on their roles, as well as scouting and recruiting players through data-driven methods. Additionally, I have established new metrics for player evaluation and created data visualisations using tools like Matplotlib and Power BI, alongside generating post-match reports and analytical evaluations for both players and teams. Moreover, I have strong knowledge on web development for both frontend and backend side.

WORK EXPERIENCE

Data Analyst

Southport Club, England.

November 2024 - June 2025

- Coding algorithms for players clustering based on their roles.
- Scouting and recruiting players through data-driven methods.
- Create Dashboards and reports for players scouting based on their performance.

EDUCATION

PhD Student

January 2017- January 2022

University of USTHB, Algiers.

Field: Artificial Intelligence.

Thesis: 3D geometric modeling from multi-views.

Master's degree

September 2015- July 2017

University of USTHB, Algiers.

Field: Intelligent Computer Systems.

Ranking: 7/58.

Thesis: Depth estimation from a single 2D image.

Bachelor's degree

September 2012- July 2015

University of USTHB, Algiers.

Field: Information Systems Engineering and Softwares.

Ranking: 14/104.

Thesis: VOIP database creation.

SKILLS

- **Programming languages:** Python, MATLAB and Java.
- **Python libraries:** Numpy, Scipy, pandas, Matplotlib, Seaborn, Scikit-learn, Tensorflow, Keras, Streamlit, mplsoccer, statsbombpy.
- **Databases:** ORACLE.

- **Conceptions:** UML and Merise.
- **Office automation tools:** Pack office (Word, PowerPoint and Excel) and Latex.
- **Data visualization:** Power BI.
- **Operating systems:** Linux and Windows.
- **Web development:** HTML5, CSS3, JavaScript, React and Tailwind CSS.
- **Mobile development:** React Native, Nativewind and Expo.
- **Academic experience :** Computer vision, Image Processing, Machine Learning, Deep Learning, Meta-heuristics, Data Mining, Natural Language Processing, Linear Algebra, Calculus, Statistics, Probability, game theory and Markov.
- **Qualifications:** Dynamism, Efficiency, Serious, Team spirit, Motivation, Self-confidence, Analysis & Problem-Solving, Research & Information Management.

CERTIFICATIONS

- The Business Intelligence Analyst Course 2022.
- The Data Science Course 2022: Complete Data Science Bootcamp.
- Machine Learning | Stanford University.

PUBLICATIONS

- Naoual El-Djouher MEBTOUCHE, **Abdelkrim BOUMAHDI** and Nadia BAHA. "Depth estimation from a single 2D image", 2018 International Symposium on Programming and Systems (ISPS). Institute of Electrical and Electronics Engineers (IEEE), June 2018. DOI: 10.1109/ISPS.2018.8379021
